

Primary Contractor (PC): Company Name/Address: <i>J&J Contractors, Inc.</i> <i>700 West Main St.</i> <i>Chattanooga, TN 37402</i> Contact person: <i>Brent Collier</i> Title: <i>Vice President</i> Telephone No.: <i>423-265-3233</i>	Area of Control: The Primary Contractor (PC) has entered into a contract with THE OWNER to implement the SWPPP and perform all construction activities at the site. The PC will implement and maintain the best management practices and address stormwater over the entire site including all areas disturbed by construction activities, areas used for materials storage, discharge points, and construction exists.
--	---

Responsibilities of PC: (not an all inclusive list of responsibilities, only highlights some of the major points)

- The PC will designate a person to conduct, document, and submit all inspections for site compliance with this SWPPP as required by Tennessee NPDES Permit TN0080934 for Storm Water Discharges Associated with Construction Activity, EPA's Construction General Permit, and any additional general conditions and/or specific requirements related to the Individual NPDES Permit for stormwater discharge issued on this site. The PC will conduct all inspections for all areas of the site disturbed by construction activities, areas used for storage of materials that are exposed to precipitation, discharge points, and constructions exists. See Appendix C – Inspector's Reports.
- The PC will provide copies of inspection reports to the Owner upon request, and will keep copies available onsite at the posted location of SWPPP documents.
- The PC shall be responsible for maintaining compliance with the applicable sections of the SWPPP, including installation of erosion and sediment controls, and all requirements in the permit. Any BMP changes that would trigger the need SWPPP modification shall be promptly communicated to the Owner.
- The PC will maintain erosion and sediment control Best Management Practices (BMPs) in all areas of the site under its day-to-day control.
- The PC will provide adequately designated concrete washout areas throughout the construction project and will be responsible for proper disposal of the concrete, mortar or grout collected there.
- The PC will be responsible for maintaining the cleanliness of the streets adjacent to the construction site (if applicable).
- The PC is responsible for advising employees and subcontractors working on this project of the requirements in the permit and applicable SWPPP. The PC must have subcontractors fill out Subcontractor Certifications/Agreement (See Appendix G) and submit signed forms to the owner and local TDEC Field office.

I certify under penalty of law that I have reviewed NPDES Permit number TN0080934, any attachments, and this SWPPP. Based on my inquiry of the construction site owner/developer identified above, and/or my inquiry of the person directly responsible for assembling the permit application and this Storm Water Pollution Prevention Plan, I believe the information submitted is accurate. I am aware that this certification is required by NPDES Permit number TN0080934, and that certain of my activities on-site are thereby regulated. I am aware that there are significant penalties, including the possibility of fine and imprisonment for knowing violations, and for failure to comply with these permit requirements.
